

There is a lot of variation in the performance of how both charter and regular public schools perform for Low Income students.

Fall 2010 Math Proficiency Rates of Low Income Students at Charter and Regular Public Schools

Source: [Fall 2010 MEAP Six Year Comparison by School, District and State](http://www.michigan.gov/cepi/0,4546,7-113-21423_30451_36965---,00.html) and Fall 2010 Free/Reduced Price Lunch Counts (Building data; available at: http://www.michigan.gov/cepi/0,4546,7-113-21423_30451_36965---,00.html).

Fall 2010 Reading Proficiency Rates of Low Income Students at Charter and Regular Public Schools

In subsequent slides, we rank Detroit elementary and K-8 charter and public schools by the proficiency rates of their low-income students.

We only include schools that are in the top quartile of poverty statewide.* At these schools, more than 71% of students qualify for free/reduced lunch. We also only include schools that have MEAP results for 2008, 2009, and 2010 – meaning, schools that have been operating for several years.

* Only schools with 2010 MEAP results were included in this ranking.

What we find is that while some charters rank high in terms of their performance for low-income students, other charters rank low.

Percent of Low Income Students Meeting/Exceeding State Standards in Math - Detroit High Poverty Elementary Schools
