Regional Educational Service Agencies (RESA) are county or multi-county education agencies, intended to provide services and support to local school districts within their boundaries. RESAs also have the authority to approve the opening of charter schools, although not all of them do.

**Wayne Regional Educational Service Agency** authorizes the largest number of schools among authorizers earning an ‘A’ on the scorecard.

- Creative Montessori Academy of Southgate, one of two schools authorized by Wayne RESA and included in our analysis, had 96 percent of its Hispanic students proficient in reading on the 2013-14 state accountability scorecard.
- Likewise, almost 90 percent of African American students are proficient in reading at Creative Montessori Academy.
- Almost 80 percent of students at Creative Montessori Academy were proficient in writing.

Note: Number of schools as of fall 2015. Enrollment and demographic information as of 2014-15.

1 Letter grades are as follows: A: 90-100, B: 80-89, C: 70-79, D: 50-69, F: 0-49.

2 This score represents the percentage of schools the authorizer opened from fall 2011 to fall 2015 that were managed by operators that met a statewide minimum quality standard over three years (between 2011-12 and 2013-14). An operator did not meet our statewide minimum quality standard if more than half of its schools failed a statewide minimum quality standard for three consecutive academic years, 2011-12 through 2013-14. Authorizers that did not open new school between fall 2011 and 2015 were not scored for this category.

3 This score represents the percentage of an authorizer’s current schools that met a statewide minimum quality standard over three consecutive academic years, 2011-12 through 2013-14.

4 This score represents the percentage of an authorizer’s schools that were among the state’s bottom five percent of lowest-performing schools for two consecutive academic years (any two consecutive years between 2011-12 and 2013-14), remain open, and did not demonstrate above state average improvement in the second year, out of the authorizer’s schools that were among the bottom five percent for the first time between 2010-11 and 2012-13.
